Dear Sir or Madam

HCC Planning Reference: PLAN/JD/RM025

Location: **Chambers Waste Management plc, Hollybush Lane, Aldershot, GU11 2PX**
Proposal: **Installation of new recycling plant & machinery at existing waste transfer Station to increase materials recovery and diversion of waste from landfill.**

Following consideration of the above application at their meeting held on Monday 14 May 2012, the Planning Committee made the following observations:

Object:

- **Site is currently used for waste transfer operations and concrete crushing – the application is for additional machinery and not for a new site**
- **Application support documents state concrete crusher will be removed from Unit 1 – will it be removed from site? If not where will it be relocated? Committee would want to see the concrete crusher removed from site**
- **Vehicle movements are not defined**
- **Increase in Vehicle movements should not be permitted**
- **The conveyor belt is too high in relation to the concrete walls meant to reduce dust and noise. The walls are stated to be 2m and 3m high and the conveyor belt stated at a height of 4m. Dust and noise will therefore be an issue**

Should you have any queries regarding the above please do not hesitate to contact us.

Yours faithfully

Carole Olive
Clerk to the Council
