Dear Ms King

Re: Application: HCC/2012/0186 (map)
Site Reference: WR231
Location: Old Park Wood Industrial Estate, Bishops Sutton, Hampshire, SO24 0JG
Proposal: Change of use of part of existing industrial building (B2 use) to use for waste transfer (sui generis) and alterations to building to increase the height of the eaves and ridge, demolition of existing extensions and building and siting of three portacabins associated with the proposed waste transfer use.

The Parish Council objects to the proposed change of use to waste transfer which would result in increased HGV movements. The access roads are too narrow. There are several pinch points where it would be virtually impossible for two HGVs to pass each other, particularly in summer with hedgerow growth restricting their width. HGVs would be unable to reverse back to a passing place as there too few. Reversing an HGV without a Banksman would be extremely dangerous because if anyone had pulled in behind the HGV they could be out of sight of the driver.

In summary, heavily laden skip lorries should **not** be allowed to access the site either from the A31 roundabout at Bishop's Sutton or from the A272 in Bramdean. A HGV restriction is already in place at the narrow A272 junction with Wood Lane, Bramdean. All of the access roads to the Old Park Wood site are unsuitable for this type of traffic movement.

Yours sincerely

Rachael Greenwood (Mrs)
Parish Clerk

cc: Cllr Harry Verney (Cheriton & Bishop's Sutton Ward)

Neville Crisp (Traffic Engineer, Winchester City Council)
Bishop's Sutton Parish Council
