District New Arrival Data (April 08 – March 09)

This data shows the number of new referrals, by language, made to EMTAS during the period between April 2008 to March 2009.

At present, language has been chosen over ethnicity as a measure because when schools initially refer a pupil they often don't know the child's ethnicity. This process is due to change in the future and schools will be asked to try to obtain ethnicity information at the time of referral.

However, the use of language data should allow for an 'educated guess' as to a pupils ethnicity.
