How you can contribute records

If you have any Hampshire records, old or new, that you would like to contribute to the recording network in Hampshire, please send your data to the appropriate recording group.

Sending to the relevant recording group avoids duplication of records and ensures that all data is validated and consolidated by one organisation. Through data exchange agreements, HBIC's partner organisations provide us with regular database updates. For species where no County Recorder exists, HBIC is pleased to receive your records.
