Dear Kristina

**Langstone Harbour SSSI**  
**Solent Maritime Special Area of Conservation (SAC)**  
**Chichester & Langstone Harbours Special Protection Area (SPA)**  
**Chichester & Langstone Harbours Ramsar**

**Proposal:** Provision of and access to a new Havant Household Waste Recycling Centre (HWRC)  
on the former Havant incinerator land

**Site:** Harts Farm Way, Havant Hampshire PO9 1HS

Thank you for your email of 27 October, consulting us on the above.

This proposal is for the re-development of a brown field site in an industrial area over 300 metres from the above designated sites. It is therefore considered that there is not likely to be an impact to the features of interest. It is our understanding that the Environment Agency has responded in relation to drainage management and the prevention of pollution impacts to the waterways flowing into the designated sites and we therefore have no comment in this regard.

We welcome the proposal's improvement of the design of the HWRC as it:

- allows for better traffic management and thus a reduction in air pollution
- a better customer experience which is hoped will result in higher recycling rates
- the use of a sustainable urban drainage system to ensure that any run-off from the site is prevented from causing pollution impacts to any of the features of interest of the designated sites.

Should you wish to discuss this response please do not hesitate to contact us.

Yours sincerely
