PLANNING APPLICATION

Supporting Statement

1. Introduction

- 1.1 This application seeks to vary condition 3 of planning permission 15967/011 to include the importation of waste asphalt arisings in addition to the current permitted importation of 'inert waste, such as concrete, brick, paving and other similar materials'.
- 1.2 The application area (the 'Site') is shown on Drawing E1/CON8/1.
- 1.3 This application is made for and on behalf of Aggregate Industries UK Ltd (AI).

2. The Applicant

- 2.1 AIUK is an international aggregates, construction and building materials group. AIUK are one of the leading producers of aggregate, asphalt, ready-mix and concrete products in the UK. In 2005 AIUK became part of the Holcim group of companies.
- 2.2 All of AI's sites are accredited to the ISO14001 Environmental Management System which underlies the company's commitment to positive environmental stewardship, and also ISO 9001 representing the company's ongoing commitment to quality control. In 2009, AI was also the first company in the world to be certified with BES 6001 - responsible sourcing of construction materials.
- 2.3 Wessex Aggregates are a wholly owned subsidiary company of AI, and are responsible for the day to day operations at Eastleigh.

3. The Site

- 3.1 The Site is located to the immediate south east of Eastleigh town centre, and some six miles to the south of Winchester.
