Dear Kristina,

I write in relation to the above planning application received by us on 15th October 2012.

Unfortunately we have been unable to comment fully on the proposed development because insufficient information has been provided concerning:-

- a) *Details surrounding the infiltration basin as shown on DRG No: R.J509002/GA-001 Will it be netted or contain any type of reeds or levels of standing water?*
- b) *The type of acceptable waste is shown as Municipal Waste. Does this include food items?*

We are mainly concerned with the potential to attract birds inc Gull species so we will require the information as above to further assess the risk to our airport operation.

Would you please provide us with the information requested above at your earliest convenience. On receipt of the information we will endeavour to complete our assessment as soon as reasonably possible.

Please do not hesitate to contact us should you need any more information.

Yours Sincerely,

Mike Glen
