

Studywiz 9.5 Release Notes

01.00, 22 Jun 2011

Introduction

This document contains a short explanation of each of the major changes included in Studywiz version 9.5, as well as a categorised list of all changes made.

Major Changes

Several areas of Studywiz have undergone major overhaul for version 9.4.5. The most significant changes are:

- The Primary/Elementary interface has been updated to include Quick Create.
- The new Assignment Activity has been modified to reintroduce functionality available prior to Studywiz 9.4.5.
- Each Class now has a Shared eLocker created by default.
- The Markbook interface has been extensively redesigned and new features have been added.

Details can be found in the appropriate sections of the user guides and online help.

Primary/Elementary Interface Quick Create

The Primary/Elementary interface now has Quick Create functionality, allowing teachers to create Studywiz Activities on the fly from any location in the system.

The Primary/Elementary interface now also has the new Assignment and File resources.

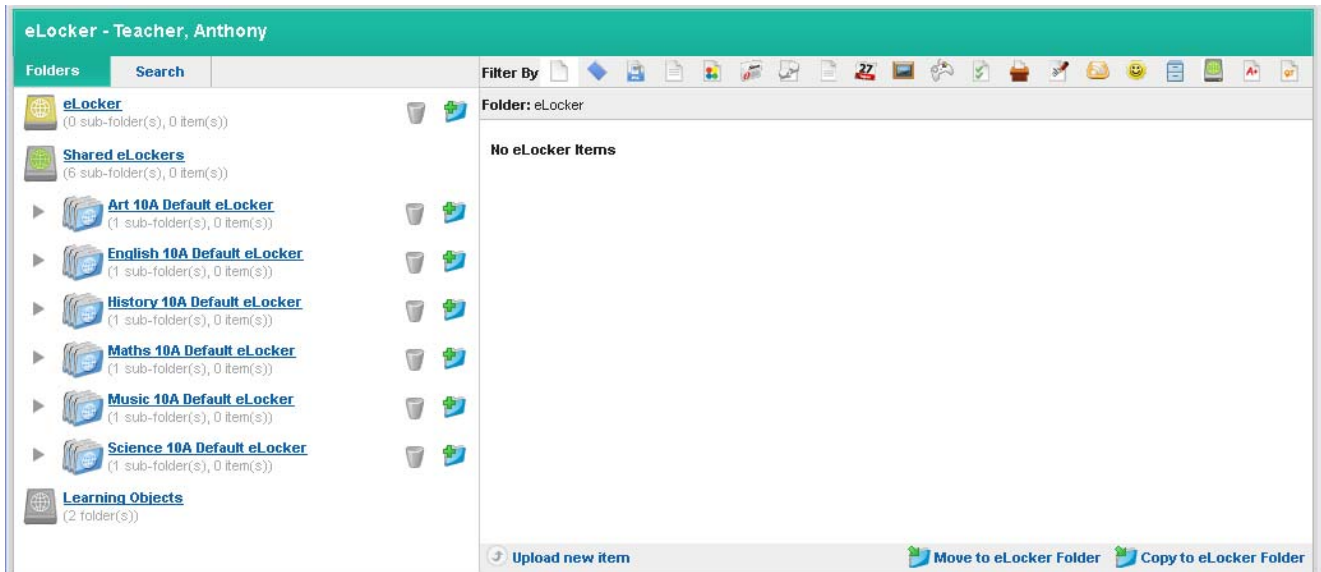

Assignment

Assignment now includes:

- Turnitin integration (where the school has a Turnitin account),
- Teacher upload of marked work,
- Tagging of submissions as 'final',
- Submission export to eLocker.

Default Shared eLocker

A Shared eLocker is now created by default for each class.

Markbook

The teacher's Studywiz Markbook interface has been extensively redesigned.

All Changes in 9.5

All changes made from Studywiz 9.4.5 to Studywiz 9.5 are listed in this section.

Assignment

Id	Summary	Incident #
14129	Parents can now view student submissions to Assignments. Submissions can be viewed online and downloaded as zip files including the student's submitted files, any text they have entered as part of their submission and the date and time they submitted their assignment.	n/a
14101	Assignment submissions in the mobile interface now show a scrollable list of all students, and displays the number of students in the class.	106617
14076	When students download their own Assignment submissions, their files are now stored in separate folders.	n/a
14105	Assignments created in sub-folders now have their due dates displayed in default calendars.	106625
13986	Assignment in Studywiz Mobile now shows the list of students and whether or not they have submitted their assignment. Assignment submissions can also be managed by students and teachers.	106217
13994	The mobile interface has been updated to accommodate the changes in the Assignment activity.	n/a
14043	The eLocker picker in Assignment and File activities now closes upon selection of an item.	n/a
14030	Assignments shared across multiple classes now have students' submissions correctly organised.	106386
13902	Teachers can now import files from their eLocker or upload files back to students' Assignment submissions.	n/a
14023	Assignment attachments provided by teachers can now be saved to users' eLockers, and can be accessed by mobile apps using WebDAV.	n/a
14078	The default number of Assignment submissions shown on a page is now 50 instead of 20. The number of submissions displayed can be changed by the teacher.	106481
9711	Assignment submission checking with Turnitin now continues when the user logs out of Studywiz.	107311
14007	Turnitin Integration has been restored to Assignment activities (requires school to have a Turnitin account).	n/a
13376	The file types able to be submitted to Turnitin can now be configured. Default file types are doc, docx, pdf, ps, txt, htm, html, wpd, rtf.	n/a
14008	Students can now select which of their Assignment submissions is 'final'.	n/a
13993	An intermittent problem preventing changes being saved when opening a File or Assignment activity then clicking the Edit tab has been resolved.	106198
14111	When downloading Assignment submissions, each student's submission file is now named according to the scheme <i>Surname, Firstname, Submission number</i> .	106684
14112	Each student's Assignment submission download now includes a text file that contains the date and time the student submitted their assignment, their mark, comments and whether or not it is shared.	106684
14119	Users now have the ability to send email notifications from the new File and Assignment activities as well as all other activities.	106699
14126	Global Assignments now correctly display student submissions.	106827
14130	Files larger than 10MB can now be uploaded as Assignment submissions.	n/a
14040	Files attached to assignments exported pre-Studywiz 9.4.5 and reimported after 9.4.5 now import correctly.	106361
13974	Assignments imported from eLocker and then edited now save Description field changes reliably.	106178
14001	Administrators can now delete Assignment activities.	106299
n/a	The file upload progress indicator now shows the upload percentage complete.	n/a

Blog

Id	Summary	Incident #
13127	The layout of the Create Blog page has been updated so that the larger RTE does not obscure other items on the page.	n/a

Calendar

Id	Summary	Incident #
14134	Events posted to the default Class Calendar now appear on the calendar on the Class page in Primary.	n/a
13968	Teachers who have access to a class, level, or group can now add events to the default calendars.	106136

Chat

Id	Summary	Incident #
13967	The new activity exclamation mark no longer appears erroneously on the Chat icon.	106132

Classes

Id	Summary	Incident #
13982	Classes can now be configured so that they are not visible to parents, even if their associated students are members.	n/a

eLocker

Id	Summary	Incident #
14022	A greater range of content can now be opened from the eLocker on the iPad.	n/a
14091	eLocker storage limit management has been improved to better handle cases where users copy or move files within the eLocker when close to their storage limit.	106566

Email Notification

Id	Summary	Incident #
14127	Email notification for Activities now filters recipients according to the class in which the Activity is being created.	106777

FastFile/File/Resource

Id	Summary	Incident #
13996	File Activities can now be set as featured in Class/Group pages.	106106
13966	The download option has been removed from the Edit tab. It now appears on the View tab. Files can still be deleted from the Activity on the Edit tab.	n/a
13964	The file server updated to catch more cases of office 'x' files downloading as zip files, including the case of downloading pptx files from File Activities using IE8.	106073
13993	An intermittent problem preventing changes being saved when opening a File or Assignment activity then clicking the Edit tab has been resolved.	n/a
14001	Administrators can now delete File activities.	106299
14119	Email notification has been added to the new File and Assignment activities.	106699
13989	The File resource in the Primary interface, when using IE8, now has the Browse button.	106189
n/a	The file upload progress indicator now shows percentage counting up.	n/a

Folders – Default

Id	Summary	Incident #
14106	Default folders and default calendars are now renamed when the corresponding Class, Group or School/Level is renamed.	106632
14117	Administrators deleting folders created by deleted teachers no longer causes a page unavailable error.	106736

Gallery

Id	Summary	Incident #
13608	Gallery Activities now have a thumbnail for movie files.	n/a

Primary/Elementary

Id	Summary	Incident #
14018	The new Assignment activity is now available in the Primary/Elementary Interface.	n/a
14017	Quick Create is now available in the Elementary/Primary Interface.	n/a
13979	Users can now click the current folder on the home page in Primary, then create an Assignment or File Activity (as well as the other activity types).	n/a
14010	The folder page structure has been updated for better file upload performance.	n/a

Reporting

Id	Summary	Incident #
12357	Usage reports for Discussion, Gallery, Assignment and File have been updated to more accurately report user interactions.	106156
13936	An update has been made to prevent a database problem that can cause Activity Access Reports on Groups to give a page unavailable error.	105823

Shared eLocker

Id	Summary	Incident #
14020	Classes now have Default Shared eLockers.	n/a

Test

Id	Summary	Incident #
13782	Test answers on multiple page tests are now saved when students navigate between pages.	105166

Uploading

Id	Summary	Incident #
14088	A problem preventing uploads to Assignment in Safari completing if you save the activity before uploading a file has been fixed.	106544 106603
